# **TV** for **55**

You've never seen it

It's the biggest 21" picture in television! That's one good-reason why Admiral for '55 is your best TV buy. The all-new Admiral Super Giant picture tube is actually 20% bigger than an ordinary 21" tube - gives you 270 square inches of sharp, clear picture.

And that's not all! Admiral's Super Giant 21" tube is engineered to give you more picture in less cabinet space. In fact, the Super Giant picture tube is almost 3" shorter than all previous 21" tubes. This big saving in depth gives your new Admiral TV set a new "slenderized" look . . . saves up to 120 square inches in floor space! In other words.

more picture on the outside—less bulk inside your cabinet,
See Admiral TV for '55 at your nearest Admiral dealer and you'll agree or you've never seen it SO BIG!

# You've never seen it

Not just bigger-but better-brighter-clearer! Every Admiral Super Giant picture tube is Aluminized-beams all the picture forward to the viewer. There's no light lost inside the tube. And to make the detail in this giant picture stand out crisp and clear, with deeper contrast, Admiral adds the exclusive deep-tinted Optic Filter Screen for true picture clarity and maximum eye comfort combined. Like every viewer, you want the biggest, brightest, clearest picture money can buy. Admiral-and only Admiral-has the Super Giant 21" Aluminized picture tube with the exclusive deep-tinted Optic Filter. You've never seen it SO BIG . ... you've never seen it SO GOOD! CHIPS OFF THE SPORTS BLOCK By GEO. H. CARYER, Sports Editor

We sat in the Don Lee World Series Stadlum ye we sat in the non Lee World Series Stadhum resteredly starmoon weiching the big game from a ringside sext. It flashed across that 34-inch screen so illelite, Leo Duroches turned and thumbed his node when one of the hibitzers wise-crackd the Glunts. (T.V. dealers can have the name of the turer on request—and a slight remuneration.)

A Brooklyn fan was there, "strictly nootral," he said. A Brooklyn fan was there, "strictly nostral," he said.
"They's nutrie to be worried about," he went on. ""Them Injuns are suffrin' from an interiority complexion. They're

The G.F. quaffed a beaker of brew. "Huh," he grinned, tcha five bucks Senor Lopes will be sending a message to cia around the fifth." "Now lookit that guy," said the B.F. pointing to the screen

where Leo the Lip was pacing up and down in the Giant's dug-out, his bald pate shining like a silver dollar. "Wadayya sup-pose he's thinkin?" Just then a Glant ranged a roller down the first hase line

The Indians first baseman scooped up the ball, and touched the bag for the putout.

"Whee," yipped the Brooklyn fan, "That's them Jynta. Goln' from batter to Wertz."

"Yeah," comes back the G-Effer, "Wot's Durocher got Lopez ain't? Answer that one, chum."

The B.F. borrowed another eigarette. "That's easy to wer," he said,

"Yeah, what?"

"Larraine Day," came back the refusee from Greenpernt.

"So does your Ant Nelly." unconsciously quipped the B.F. In more serious vein today it was the sometimes brilliant young righthander, Rube Gomez, against Garcia, last of the van-ishing Indian's Big Three.

But where, oh, where was the man of the hour, Jim Dusty

Rhodes, the Glants' one man gang, who practically single-handedly scalped the Tribe at the Polo Grounds, was back on the bench. Dusty didn't like it, but that's where manager Leo Durocher wants him.

"Look," said Lee, "I want that guy at my side so that when the right spot comes, I can reach out, tap him on the shoulder and say: "Okay Jim, he's yours. Go and get him'."

# MAKES UP MIND

In the clubhouse after Thursday's 3-1 victory, Leo told re-corters he hadn't made up his mind whether he was going to tag with Monte Irvin in left field or switch to Rhodes.

"I'm going to sleep on it." he said.

Later, however, he told Joe Reichler of The Associated as that he had decided to stick with his original starting

# A FAILURE OF DISCIPLINE

The recent widely-publicized and universally-deplored antics of irresponsible students at Ontario universities has brought prominence again to the idiosyncracles of college

ever, the nature of their jeopardations have

However, the nature of their gopardations have changed in the course of the years.

In times past students themselves were the butt of their unbridled spirits. On occasions when their and injured or destroyed properly it was usually the property of the university or their own or rival groups living quarters and suitable and swift punishment was meted out.

However, the assault of a professor and the pillaging of a women's residence at the University of Toronto by or a women's residents, and the breaking of windows in the Eineston police station and the ripping of a motorist's Mingson ponce station and the ripping of a moost-ahilt by Queen's University students are invasions of the rights of others. The students, instead of venting their energies on one another have turned on non-university persons or taken to raiding women's residences.

Probably one of the reasons for this shift in initiation is the decline of the custom of hazing. Hazing and its attendant savagery kept freshmen so pre-occupied with their own unhappy lot that when they ran amok they did so at the expense of seniors.

Now the custom at most universities is for the seniors to direct a freshmen reception committee that greets students with open arms and organizes a series of dances and parties for their entertainment. Included in the fes-

round is usually a bonfire and a snake dance.
Instead of freshmen being divided and cowed individually by severe senior discipline they are herded togeth-er and stimulated by pep talks. It is hardly surprising after creating a mob and stirring it up, that the mo should go forth and act like most mobs. Some of the blame for freshmen vandalism, therefore,

ould be laid at the door of senior university students and more especially the "reception committees" whose methods of reception emphasize mass action and whose inability to control such action leads to mob violence. To such degree as student government is responsible for maintaining student discipline, it must share the blame for

shmen jeopardations.

Freshmen. like most adolescents away from home for the first time, are more likely to be on their good behavior unless convinced that good behavior for students havior unless to mob action. is mob action. While we cannot absolve individual fresh-men from the guilt of their actions it is difficult also to excuse the followe of senior student and university distipline to prevent such demonstrations in the first place.

# A RESTFUL SILENCE

Where are the prophets of doom who lamented so loudly in past years the ravages done lakefront property on Lake Ontario by high water? Have they been convinc ed, finally, that high water in Lake Ontario is the result of circumstances not of man's making? Have they retired to a damp and airless den to draft another resolution condemning water? Or are they secretly preparing a petition to the United States government to keep water from flowing downhill?

Perhaps the auspicious debut of the St. Lawrence seaway and power project has stunned this unhappy group with the enormity of what this project will entail.

A few years ago, Gut Dam, with all the virility of its Anglo-Saxon name, muscled its way into the headlines as the culprit that was damming the St. Lawrence and there-by raising water levels all the way to the foot of Niagara. Falls. (Residents along Lake Erie, also discomfitted by high water, found it a little more difficult to locate a buitable target sithough they did accuse the Ontario Hydro's diversion of the Ogoki River for pouring too much water into the Great Lakes.)

However, so great was the cry of distress about Gut Dam that it was demolished. Apparently all was serene although lower water levels were not noted along Lake Ontario. However, hardly had Gut Dam been removed than the Ontario Hydro, in co-operation with New York State, announced that the entire river would be dammed

and that the head would be some 70 feet.

Where are not the dam busters? Where is the hue and cry about high lake levels and ravaged waterfronts?

We have believed all along that GU Dam had no effect on the lake level and that the Hydro dam is not likely to have much effect either. Perhaps it is too much to hope that lakefront owners have arrived at the same conclusion, but their present eilence is restful, if nothing dise

#### WIRE PREVENTION WEEK

October 3rd to 9th is Fire Prevention Week in Belli ville. Fire, a useful servant of man, can be one of his mos Hangerous enemies.

In the last 10 years 4,947 Canadians have lost their lives in fires. Some 15,000 others have been seriously

ared.

In that same period there have been 585,422 pre-table fires with a total property loss of \$894,834,000.

This tragic waste of lives and property is increasing

Circulator Letter Issued by Your Fire Chief . . .

This year as in other years, your Fire Department will join forces with Fire Departments across Canada and the United States to bring to the residents of our Communities that Cotober 3-9, 1934 has been designated by Govenor General Massey through Order-In-Council, these dates to be known s., "Fire Prevention Week," and, we believe that the words to the 'by during The Trevention Week," and every week act, "Let's good up, not burn up."

The main reason for Sire Prevention Week is to create an in-terest in the problems of Fire Salety so as all members of our Com-paration of the Salety so as all members of our Com-paration of the Salety so as all members of our Com-paration to eliminate any Fire Hazard, whether it may be in the home, factor, office, church, school or hospital, help your fire de-partment to help you by following their motto, "Fractice fire pre-vention every week of the year."

This letter is issued with the constant thought in mind to save life and property in our community and in closing we wish to thank you in advance for your co-operation in helping to make Belleville a safe community.

- Belleville Chamber of Commerce - •

October 1st., 1954

In Belleville, we are fortunate to live in a beautiful old city with a historical background.

We should be proud to call Belleville our home and careful to protect what we have. Yet, last year our Fire Department ans ed 552 calls and in spite of their gallant forts, one life was lost and \$75,266.00 property damage resulted — a really appalling loss which caused death, human suffering and hardship, as well as financial disaster. Surely, this could have been lessened if proper fire precaution had been taken

It is our responsibility to our families and to our neighbor, to take every precaution to prevent fires ourselves.

Let each of us start by eliminating overloaded electrical cir-cuits, cleaning up rubbish and above all, by being careful.

We should also learn to recognize fire hazards and how to overcome these and teach fire prevention to others.

It may save your home - it may save your life.

#### DATE HEARTED PURSUIT

It is sad, but true, that the pursuit of culture is a half-hearted chase for the mass of the population—culture in this case being defined as the by-product of association with symphony orchestras, ballet companies and the living

The box office, while it may not measure the desire of the population for these forms of entertainment, is one of the few available guides to the intensity of that desire

of the few available guides to the intensity of that desire. And the box office cruelly reports that cultural enterprises, in general, are not self supporting.

That this is not simply is local observation is borne out by the treasurer's report of the New York Phillarmonic is Society at that society's smanual meeting. He reported that the Philharmonic had incurred an operating defert for the 1935-35 season of 105 concept, of 3251,318. This

A devoted coterie of culture seekers in every commun. A devoted coterie of culture seekers in every community has, through the years, conveyed the impression that the rest of the public is remiss in failing to support or-hestras, dancers and thesplans. They may be right but public indifference would indicate that the average man is not too concerned about the ethereal values he may be

missing.

Culture, apparently, is for the few and unfortunately for culture there are too few interested to support the practitioners of its various art forms.

The world series is over—and there has been a multitude of stories come out of the classic despite the lightning-like rapidity with which the Giants disposed of the warriors from rapidity with which the Giants disposed of the warriors from the tepoes on the aboves of Lake Eric. One was came up with the statement that Casey Steagel would ask for a re-count in the American League. It leaked as though the Indiana had stuffed the ballet box.

Vie Wertz finally found a way for folling Willie Wonder "Let me see you catch that one, Willie," he said, as he entre for a home run. Willie would have caught it, too. But there is one flaw in his fielding, he can't climb fences. He got to the barrier in time and jumped, but the ball was over his

And the shy Willie proved he can think as well as hit, field and run. "When Grame came in to catch for Jim Hegan in the second game, I noticed he did not throw a warm on the second game, I noticed he did not throw a warm-up pitch to second base," the shy Willie sald. "There are some catchers who do not need warm-up throws. But he does. So I flashed the size to Yan-up throws. to a second the sign to how, seems in a country

Dusty Rhodes received a telegram from a v Chinese restauranteur in Gotham after whacking the 278-ft. blow," the wire read, "we invite you to restore your energy with our homer-producing Chinese food,"

This, of course, due to the fact that the type of hit that usty dusted is referred to in baseball parisnes as a "Chinese

According to Gary Schumacher of the Giants' front office, sincese homer" was one of the numerous "Tad" Dorgan 'con-nitions to the American lexicon of slang.

Joseph (New York Times) Sheehan writes

"Through his famed "Indoor Sperts" catioon the late Tad was the originate, or at least the population, of many long-surviving alang cayersation. Among them are "apple mason," " cale-caster," "damb-bell," "but don't (for the translaterier and rell pourcyed by the late Harry M. "The cannot age on in innovationals footer, who cannot be smalled as of a "cheek" heave-the heave-taken of these bing Chinese cooline, cheep believe for the series carried the added constants of a honer of believe for the control of the control o

In fairness to Borgan, a benign and gentle satirist, it aid be stressed that in introducing the "Chinese homer" naw he had no thought of disparaging the Chinese people, a matter of fact, Tad, a native San Franciscan, had two poted sons of Chinese assessiry.

It should also be brought out that Rhodes has hit Japan homers—in Japan. On the Giants goodwill tour of Nippon I fall, Dusty was the leading slugger of the National Leag

This sets the background for a good story that Rhodes fells on himself. Until recently, Dusty was strictly a fast-ball hiter. Curren and chante-up pitches ited him in knotz. In fact, in his first time at bat in Japan, he struck out on a slow curve.

Duxly returned to the bench muttering to himself, "I suppose if I ever get to play at the North Pole, some Es-bine will throw me a change, up."

#### COMMONS REFORM NECESSARY

COMMONS REFORM NECESSARY
At present there are 20 vacancles in the Canadian
Senate. According to the Canadian constitution: the
Senate has 102 seats. The death of a Senator recently
left membership in the Upper House at 25 of which 75 are
Liberals and serve Conservatives.

Much has been written in past years about the declining influence of the Senate and its diminishing contribution to national life. It is obvious, however, that
the Senate, for all its alleged faults, cannot properly carry
out its constitutional functions efficiently with 20 per

# 'Lo, The Poor Indians', Now The Target For Rest Of American League Pack

CHIPS OFF THE SPORTS BLOCK By GEO. H. CARVER, Sports Editor

There is monkey business in Mappetville. The aeribail and baseball pear has been put away for another year. The third of boot on pigskin is board on the corner less, the campuses and the parks. Thankspiring will be a respite, so will Hallowe'en. But for the younger fry big things are

a, young Belleville has begun the annual raid on attic, shed and garage, or wherever the hockey gear is stored.

Skaies are being inspecies. Shoulder pads, shinguard, cillow guards, in fact every prelective item in the player's calendar is being resurrected. Shertly a list of necessary items will be presented to the "old man." It is a dress re-nermal for Santa Claus, with ne "indian giving."

Nor are potential teams, leagues, etc., being neglected. The kide are a year older. Some of them will advance to upper brackets. And the family telephones are beginning to shill with requests for what teams are available this year. And here is a tip to the youngsten.

Piesse be patient. Hockey teams are not organized over night. There is pienty of time to get you in line. As many as possible will be placed on organized minor squads.

Mr. Frank Grandame, president of the Belleville Minor Hockey Association, has been in hospital for the past two weeks, a victim of pneumonia. He is undergoing slow recovery—and will not be able to get his organization underway as quickly as he would have done otherwise.

way as quantity as he would have does otherwise.

As soon as he is physically able, perhaps in a couple of weeks he will call a meeting of the BMIA and get things under way. So places don't ruch him, nor bother him with interference of the state of the

Incidentally, any persons or organizations desirous of sponsoring a minor hockey chib this season is requested to get in touch with "Red" Deras at the city hall. He will take care of such matters until the annual needing is called.

CATE of Such Baser's name as manual mercina, or unsure.

And in passing all sportmens of the city and district with a speedy recovery to Mr. Grandaue, who has done yetman service for minor baseball and hecker over the years.

He saked from his hospital room today that this department actived his sincere appreciation to all those who have to accrete his sincere appreciation to all those who have to accrete his sincere appreciation to healthy morphily and best wishes for recovery during the solution in hospital.

By the time this edition ratites off your front perch it should be known whether Manford's Mr. Sparrow flutered in on two wings, or Point Anne's Mr. Marsele presetted the Knights out of their shifting setthall armor and called for a third jourting in a Toronio amphitheatre.

Mr. Sparrow, who stands six feet six toches in his plakies, is a University of Detroit bankethall star, and a buzn-bolo-ball softhall filtered or no mean shifty. He has a ball that cores fire as if fashes through the enous, eccording to ob-servers at the grane in Mesterd Mondey, and is a Daty Bhodes excress the grane in Mesterd Mondey, and the Daty Bhodes of the Manager of the Manager of the Mondey and the the be did this attention, of course, is not known at this time.

However, the Ox Pelalers have full confidence in nel-only the irea-man arm of Master Maracle, but their own hitting ability once they have tasked the bloog of enemy pitching. They fell today that Patrick can take the haughty Knights in Ox Pelal, and carry off the Southern Ontario title at the third rame in Torento tomorrow.

Another well known name in softball circles, especially around the western part of the province, shown his water in the district coinglit. He is Well? Zuk. a spinner of fast selfiball yarms, who heatied the Frankferd Entermediate "B" only 11-2 on Monday—and is back in the Hastlang Comity village this evening for the second game of the series for the provincial tillic.

White Mr. Duk (pronounced "Zuck" pro ten), a shifty buk, doesn't M huk—he's never stuk. He tulkted struks part fifteen stakford bake on Monday, and just for luk, niked as lands is last a single, the ornery club. He will be in action when I sad a single, the ornery club. ### A STRANGE RECOMMENDATION

It is difficult to follow the reasoning of the members of the criminal justice committee of the Ontario section of the Canadian Bar Association. Meeting at Toronto, the committee endorsed a matten

at an amount to remove the recombing of the insertion of the Canadian har Association.

Meeting at Toronto, the committee endorsed a motion that all necessary legislative amendments should be made prohibiting the use of corporal publishment as part of the committee rejected the second half of this motion which recommended that the right of war-fless and superintendents of penal institution which recommended that the right of war-fless and superintendents of penal institution. In other words, in the opinion of these experts in the committee of the remove that the right of war-fless and superintendents of penal institution. In other words, in the opinion of these experts in criminal justice, it is not destruible that any type of crime should make the cuipet liable to corporal punishment, and after the accused has been accorded every protection of a fair trial, should be able to sentence a guilty person of a fair trial, should be able to sentence a guilty person to punishment of this type.

### A REAL TRIBUTE

Reeve Ben Lewis of Eloblocke Township, near Toronto, announced on Saturday that a complete orthopedie warf for crippled children will be equipped in honor of Marilyn Bell and her coach, Gus Ryder.

Marilyn and her mentor have taken a keen interest in adding crippled children through the Lakeshore Swim-

in aiding crippied children tarough the Lakesnore Swim-ming Club.

The decision to honor them through assisting the children in whom they are so keenly interested is a praise-worthy one. It is a tribute that really means something, one which sets an example which might well be copied by other groups wishing to honor persons for outstanding achievements.

NOW, LET'S GET to the POINT!

Let's Talk Advertising In Terms of Your Business. Just PHONE 4600!

What's the point of advertising? It's as simple as this. If you have something to sell, the more people who know about it, the more you will sell. Your ad in this paper affords the quickest way, for the least money, to get your selling story before the most people. If it pays to sell, it pays to advertise . . . because advertising IS selling, geared for largescale, profitable results?

A QUESTION OF "LOYALTY?"

In a recent provincial by-election in Leeds County one of the candidates was a woman.

one of the candidates was a woman.

She lost.

Under a pen-name, a Gananoque resident wrote a letter to the editor of the Brockville Recorder and Times. The letter contained the phrase "we women," so it is evident that the writer is a member of the feminine

In her letter she says "it is unfortunate that the women of Leeds, of whatever party, did not have the logalty to vote for one of their own sex."

This lament is always voiced by somebody whenever a woman is defeated at the polit.

It can only be justified by the belief that a woman is, in some manner, better qualified to hold public of-

nce tann is a man.

Some few persons, practically all women, do hold this opinion. They are entitled to it; but they should also recognize that if they hold and express this opinion and vote in accordance with it, men are also entitled to hold and express a contrary opinion and vote in accordance with it.

That many men have, in the past, done exactly that in the many men nave, in the past, court exactly lines is true. This has produced sharp criticism from many women and from a number of men, also. We think this criticism is justified and that those who maintain that qualifications for public office are not dependent upon or are correct.

sex are correct.

If, however, this view is accepted it should be recognized that women, as well as men, should disregard the question of the candidate's sex when they determine how to cast their ballots. There is no question of flow to cast their ballots. There is no questions of "logalty" involved, except a loyalty to principles. The women of Leeds who did not vote for a woman were not disloyal to their sex but were loyal to their opinions to the political policies which would best serve the interest of their riding and of the province.

terests of their fining and of the province.

Incidentally, if any advocate of women's rights should object that this is all very well in theory but that in practice men disregard this rule and vote for a man regardless of his political affiliations, may we remind them of the case of Miss Agues Macphail, the first woman to be elected to Canada's House of Commons. Miss Macphall won election after election, with the bulk of her backing coming from farmers' organizations and labor unions, neither of them groups which can be con-sidered to be dominated by women.

#### TIME SOLVES A PROBLEM

The agreement between Italy and Yugoslavia over the Adriatic territory of Trieste is welcome. It is also significant. It proves that time does solve some problems.

There are always people, usually of high principles and good intentions, who are urging us to meet our problems head-on, who maintain that delay in seeking a solution will not solve them but will only render them more acute.

In many instances this is true but sometimes-

particularly in instances where pride and passions are involved, time works wonders.

Tito has now accepted a settlement of the Tricete problem which, if forced on him even a year ago, might have led to bloodshed.

#### WHY NO FALL SESSION OF PARLIAMENT

Prime Minister St. Laurent has announced that Parliament will not meet until the new year. George Drew, the leader of the official opposition, wants it to meet this fall. The Winnings Free Press, a Liberal paper, says that Mr. Drew is right and Mr. St. Laurent is wrong in

that Mr. JPEW is right and all of this dispute.

It is Winning Free Press sees the difference as a familiar one between "inst" and "outs". It is the nature of governments to believe that they can get along quite nicely without a lot of controversy, whereas it is the business of oppositions to believe that in debate they can bring out weaknesses in administration and move public opinion

### A Canadian Thanksgiving ...

Radiant, Autumn from ocean to ocean, Shines with the harvest of field, stream and wood, Food for our bodies, and beauty around us.— The Land that Thou gavest us, Lord, is good.

Silver the rivers run to the ses, Golden the fields lie under the sun, Treasures untold lie under the earth, Endless Ty Bounty, O Lord, for each one!

Rich is our land in body and spirit,
Preedom our heritage, shining and
strong—
Hear then our voices, from ocean to
ocean,
Praising Thee, Lord, in Thanksgiving
Song.

## Who's brightening your future these 4 ways?

Some people are beloine to bring your community a new shopping centre, highway, school power plant or other useful projects. Who are they? Life insurance policyholders! Money from the premiums they pay is in-vested for them in ways that help finance improvements like these

A longer, healthier life may be yours, thanks in part to life insurance policyholders. Life insurance companies contribute funds to medical research studies designed to free Canadians from the threat of many dread

Everybody shares in the prosperity which expanding industries bring to a community. Some industry in your community may have built a new plant and employed more workers because life insurance companies invested money in it on behalf of their policyholders.

Some day - perhaps soon - you may want a new home. If so, you may find yourself living happily in one of the thousands of new houses which have been built from coast to coast with the aid of money invested for licyholders by life insurance compani

So, if you are a life insurance policyholder, remember-while you're providing security for your family and yourself, you're also helping to make Canada a better land to live in!

P.S. From your life insurance man

"Invested life insurance dollars earn interest that makes it possible for you and your family to enjoy the benefits of life insurance at such low cost. If you have any questions about how to make life insurance fit your owr special needs, give me a call. I'll be glad to help you!

### PRINCE OFF

Argumentative smoke bung in a thick pall over the meeting of the Eastern Ontario Senior "B" hockey group held here Sunday. It sook nearly six hours of you and cons before the representatives from Belleville, Onhawa, Kingstan, Peterborough, Cornwall, Brockville and Clinion, N.Y., got matters squared away.

The big bone of contention was the division of a pool set aside for clubs' transportation expenses. Motion followed mo-tion and amendment followed amendment until Vice-president Frank Buckland of the O.H.A., threw oil on the troubled waters

The clubs accepted with a few changes the 48-rams schedule as laid out by Mr. Buckland. The group efficially opens with Clinton at Nigarion on October 23th. Belleville gets its first taste of group combat on Friday, October 23, when they play hosts to the Ochawa Turchana. They go to Cornwall the next night. The complete schedule will be published comerow.

Let's Talk Advertising In Terms of Your Business. Just PHONE 4600!

What's the point of advertising? It's as simple as this. If you have something to sell, the more people who know about it, the more you will sell. Your ad in this paper affords the quickest way, for the least money, to get your selling story before the most people. If it pays to sell, it pays to advertise . . . because advertising IS selling, geared for largescale, profitable results!

# GET WHITER, YOUNGER-LOOKING TEETH IN JUST 3 WEEKS WITH PEPSODENT

Your dentist has a tooth shade detector-it clearly shows that your teeth lose whiteness as you grow older. But far too often, people let their teeth grow dull before they should, adding unnecessary years to their appearance. Keep your teeth white, younger-looking with Pepsodent. Impartial laboratory tests prove that Pepsodent Dental Cream gives you whitest teeth whiter than other leading toothpastes. And remember—white teeth

are clean teeth-and clean teeth help prevent tooth decay.

As the desert comel-rider once said, "There's always a home chead."

Yes - even the folks who daim life is a merry-go-round have their ups and downs.

Regardless of who you are, along life's road you'll find unforeseen problems, emergencies or opportunities . . . times when tucked away reserves are a mighty handy thing to have.

To build such cash reserves - easily and safely - more than a million Canadians each year invest in Canada Savings Boads.

Canada Savings Bonds are available now - for cash, or in weekly or monthly instalments - at your bank, investment dealer or through your company's Payroll Savings Plan.

And what's important - your Canada Savings Bonds are always immediately cashable at full face value plus earned interest ... a tucked-away reserve of cash for any time that you may want or need it.

Be ready for future ups and downs. Save safely - pile up your savings - with

# Such delicious news

Now ... from her new Canadian Kitchen,

Betty Crocker brings you her famous cake mixes. With them you'll bake the kind of cakes that look . . . taste, and keep moist like the best homemade.

### GREETINGS

"I know many Canadian homemakers have my Picture Cook Book and will be pleased that our services and products are now in Canada.

Each of my cake mixes is made from a special recipe, and with the kind of ingredients you would use in making your own fine homemade cake.

You add your own fresh eggs at baking time. We know. (from thousands of bakings by our staff and homemaker friends) that fresh eggs mean a better cake, a cake with special homemade goodness, flavour and keeping quality. My Invitation Offer makes it easy to buy and try them."

### Detroit Red Wings Edge Arch-Rivals Canadiens 3-2 In Teams' Opener

OAKVILLE HERE FRIDAY, SATURDAY

The baseball wars resume here again tomorrow night with the Batas and Gakville Oaks crossing swords in an effort to establish an OBA Senior Baseball champion. The powers-that-be got their noggins together yesterday and decided to play the first game of the best-of-three series decided to play the first game of the best-Of-three series in Exhibition Fark tomorrow night starting 8.30, with the second illi scheduled for Saturday atternoon starting 2.30, and the third at 8.00 if necessary. The Baias want to wrap it up here Saturday night but the Oaks are not too feasy about three games in so close a row.

The Oaks are depending heavily on their ace lefth Ross Paton, a forksider of more than passing ability, who likely get the starting assignment in the opener.

Coach Vern Goyer will likely send Art Wright to the mound in an effort to cop this all-important opener, with the reliable reliefer Bobby Bunton, and there's few better in the district, ready, just in case. That's pure confecture as we do not know what the big boss man has in mind.

The battling Bobeats hit the last barrier between them and the OASA Intermediate "AA" championable in Cobsury to the control with the provided Action of the Cobsury and the C

At the last reckoning there were 30,000 "kitty-hitters" in Canada, ranging between the ages of nine and ninety, so to speak. And next year, officials say, this number will be in-

Curling in Canada, has reached tremendous proportions during the past few years, and today there is scarcely a city, town, hamlet or settlement that does not boast an enthus-last if not an organization.

Bowling officials through the media of sponsors, local en-thusiasm and extra tournaments, hope to place their game on the same popularity status as the boys of the "besam and dane."

Next year, it has been announced, lawn bowling will stage its first "Champion of Champions" tournament on a national basis. The tournament is being spomsored by the Gooderham and Works Company.

Every bowler in the country will be eligible to participate this national event, the blue ribbon classic of lawn bowling.

The fournament will be held in August, on sites to be named each year. Each previnee will be represented, after the necessary climination (currantens. Singles, doubles and risks will be played with pitesty of time allowed for travel and yracities. Flay in the final championable series will be held on a round-robin basts with each prevince champion metting the fitting when the province champion.

And there will be plenty to "groll for." Trophles, pen-nants and souvenirs will be presented by the sponsors with the Canadian Lawn Bowling Association awarding crests to the various champions in all events.

The opening bowl will be made at 9.30 a.m., August 30, at a site to be announced, with the second game starting at 2 p.m. Matches for the following day will be at 9.30 a.m., 2.00 p.m.,

In addition to the national tournament, and in furth effort is stimulate interest, the Provincial Lawn Bowlist Association has announced that a party of 50 bowlers w leave next March for a playing tour of Los Angeles and S

So it looks like in the not too dim and distant future the curlers won't have a clear field in the cracker-barrel arguments. You'll be hearing a lot more about the "kittles, spiders, ends and bowling" when the boys get together to reminisce about the brooms and siones.

What with baseball, hockey and other sporis now on television, and curling and lawn bowling coming into their own, us old rockin chair addicts won't find life so bad af-ter all.

Your medestrians wald attention to it. It was an o ren-of-the-mili funeral. No guardsmen with brilliant plum-age, slittering weapons, tall bushles followed the casket, No ds marched in slow time. There were a few mourners.

Few realized that it was the last "heat" for one of Britable famous marathan sunners. He was Charile Hart, who tain's famous marathon runners. He was Charlie Hart, who died at the age of 87, and practiced the theory that "ex-ercise is the answer to health and longevity."

Hart was a small man. He was barely five feet tall and wrighed in the neighborhood of 135 pounds. He won over 500 long distances room in his career. Last year, a white-haired figure ran eight miles in 192 minutes. It was

danced almost as many in ballroom contests. He was still ac-tive until a few months ago when attacks of bronchitis forced

It was back in 1836 that Hart beran full-time profe It was back in 1886 that Hart began full-time profes-sional running, but he did not make any special headlines until he reached middle age. In 1914 at 47, he ran from Brighton to London and back, non-stop—a distance of 154

In 1925 two horses and Hart faced the barrier. It was a skeday contest. Hart paced the nars for eleven hours a day and won by eight miles.

The United States beckmed in 1928 and Charlie went to The United States beckoned in 1928 and Charlie went to Connecticut and triumphed in a marathon dance context, be-next year he danced continuously for 1,962 hours at Long Beach, Ealtfornia, said to be a world ballroom endurance record he labo took part in a trans-continental marathon race from Los Angeles to New York—a distance of 3,000 miles.

This fellow with the rubbery legs and stoul hear re-turned to Britain in 1931 where he walked 1,256 miles in 1,566 hours. Although then in his sixties, he allowed him-self only ten minutes in each hour for alceping, eating and washing.

At the age of \$4, Charile for a \$32 wager raced a coach and four horses on handlesp terms over the sixteen miles from Window to Twickenham Green in London and won by

When he was in his sixties, Hart was advised by physi-ns to take it easy because he had an enlarged heart. But t did not deter him. Came the fatal bronchitis that took t of British's most colorful track, road and dance-floor

Old Jupe Pluvius seems reluctant to leave these here parts by the looks of the sky today, but both the Bobcats' and Batus' managements are keeping their pinkies crossed.

This afternoon the Cats are in Coboury in their final do-or-died joust with the Tevente Lecal 299 for the OASA intermediate "An" tille, while tought the Batas clash with the Oaks from Oakville in the first game of their best-of-three series for the OBA senior champlonable. The squade go al it again fomorrow afternoon at 230 and II necessary at night, satirily at cight of events.

Maybe this was the reason for Dusty Rhodes "Chinese" homer in the recent world series. It seems Chinstown in New York is a rabid Dodger stronghold with a sprinkling of "lyns" fans.

### Wisconsin-Purdue Clash Will Be Pick of Games

NEW YORK (AP) -- The line-splitting rushes of Alan (The Horse) Ameche will be matched with the deathy pitching arm of Lenny Dawson Saturday when Wis-

its first three games without a de-feat.

Duke, also imbeaten, will have its own hands full at Durham, N.C., where it meets a swift-hitting Army team which has scored one-sided victories over Michigan and

Dartmouth.
Oklahoma, which catapulted into
the No. 1 position in the Associated Fress poli on convincing victories over California, Texas Christian and Texas, plays Kanzas and
rules a three-touchdown favorite.

#### FEAST FOR HOCKEY FANS

PEAST FOR HOCKEY FANS

Believille hookey levers cannot complian about the coming winter's nervo. A senior group which has 168 games on its regular schedule; 24 home games and 24 "away" games for each team, certainly often something more than a startuistin det to poor them stable changes which two or three decades bring.

There was a time when the nockey season consisted of a half dozen or so group games; if you were forward of a half dozen or so group games; if you were forward to be a season of the season was often very short. But every game meant some time.

was often very snort. But every game means some-tring.

Now seven teams will play a total of 168 games to ell-minate three teams. Quite a change.

#### WAR TOLL STILL MOUNTS

The cvil that men do lives after them . . . And Shakespeare knew nothing about modern mines

and hombs.

Late last week a thousand-pound bomb was unearthed in the American sector of Berlin. Demolition experts face a ticklish job in rendering it harmless, since they are unable to deduce it.

Late of the definition of the section of the se

mahls to defuze it.

Monday a Norwegian stip was sunk and one man was killed when the vessel struck a mine in the North Sea.
Of course, there is nothing new about old weapons taking lives long atter a war is officiantly over connections. The danger of this type of thing, though, seems to be increasing with the years. The sword that was mislaid, the arrow that buried fiself in the earth, did not later kill or main. If the day comes when the dud hombs or the dancer will be immeasurably enhanced. will be immeasurably enhanced.

An Associated Press dispatch says Western leaders, puzzled by Russia's plan for atomic control presented recutly in the UN, are "wondering how far the Russians are prepared to go." Surprising! The general impression seemed to be they had gone far enough already.

The Oaks, seconding to Batas' manager Jack Ca taken off, a victory gleam in their eyes, and were well on their way to Belleville when "Hazel" decided to take a hand in af-

We are not exactly aware of the geographical situation, but it seems the Oaks were just west of a bridge on Highway No. 5 when "Hane" decided to go into action. The Oaks were "suited ws by police officers and a few minutes later the bridge went out taking the lives of ten people. Whew, close, west

That is what the manager of the Oaks phoned Carson. The Oaks were on the west side of the bridge. Roundabout highways were closed due to Eazel's high jinx, and the Oaks were forced to return home.

Jost what with happen now is a matter for the master minds of both testims. This corner sugrests the whale ba-siness he called off and each team take a how. After till, hockey is artested that corner—and the corner is with us. The westlers: as an important element in cutdoor sports at this title of the year, and a team like the Oaks having to travel 139 milled—il ain't fanny, McGee.

Al the same time it is a bit tough to spill a title, for it is the first times that a Belleville team has had the senior backful had within reach since the early wenties. How-ever, owne what may, the Batas and their grand sponsers, the Bate Shee Gempany, of Batawa, not excluding that ois gray, Art Demans, should feel exceptionally proud of their diamong scitements in this 1936 season.

However, the issue could be decided in a sudden-death ulr, just to keep the record clean, and no doubt both te till agree to this suggestion. But when? If Carson and taken memager could fix matters with the weather man, it co a arranged.

#### TO CAME

The Tricolor of Queen's University seems well on its way add the royal blue of the Intercollegiate football champion-p after the Golden Gaels crushing 20-0 defeat of the highly-sted University of Toronto Blues on Saturday.

It was a greet day for the Galest. In the randstand ast steeldee grade it fewn for a sawbones convention, and Frank tindal's frings squaden did not jet them down. Ronny Stowart, added and abelied by Bellevilles gift to Queen's Gary Schreider, and Jay McMahon, scored all the pictus that neits this department's Alma, Mammy down to defeat.

The Triolor whupped the bejabers out of the McGill Red-men the wesk previous and the "Foot of McGill Street" had the black bunting out in gobs. The McGillians, meanwhile, were getting lambasted upon London (in the bunh) way, as the Mustangs of Johnny Metras' University of Western Ontario cor-ral bucked and threw them for a 25-6 loss.

The Gaels have not hasted the wine of titular glory since 37 and since that time have been the stepping stones for cother squade in the Intercollegate griditors documentain, we it seems Cosch Tindall has whipped together a squad werful and departments that now leads the "Rah-Rah" to by a point over the Mutlangs.

The or y youn were the instance.

Again in the fourth quarter the Hurricane Hall snatched a Etcheverry strike out of the cone even as two Tabbles leaped for it and broke for the goal-line 63 yards away. He came in under a tight rein, standing up, as the horsemen and baseball men say, and that was it.

"Sammy-the-Man" Eicheverry who has been a potent factor in the Larke' semantional performances this year, again wore a here's hale. The subber-armed Sambo struck for two spectacular passing drives of 97 and 75 yards.

CHIPS OFF THE SPORTS BLOCK By GEO. H. CARVER, Sports Edia

Sugar Ray Robinson, once the darling of Parisian night clubs, star of American fightery shows and former world middleweight champion has the "itches."

He has a decided "lich" in both pains, which nothing but larre, juicy chunks of folding molecy will assuage and another slop his dusty nogric's, which yearns for the familiar loads of the world middleweight crown.

Just whether Sugar Ray's itches will be appeared re-ins with Father Time and the swarthy-ex-champion's abil-to make a comeback.

The thirty-two year old ex-champion who has not donned a slove since be murmured "uncie" to the heat and Joey Maxim's light heavyweight socks back in June of 1833, started training yesterday at his Greenwood Lake. N.T..

Reports state that the boxer turned song-and-dance man, realized a minimum of \$5,000 weekly and earned for him more than \$100,000 during the part year. He says he bopes and prays he can regain his form and the middleweight title.

"But I am not young to stand here and say that I'm not in need of finances — who deem't need a few bucks — but I don't need to fight for a living. My investments are all se-

Robinson seld he got the urge to fight during a song-and-nes tour in Europe two months ago. He claims he feels od, in fact he never felt better and weighs about 157 lbs., weight he carried during his last fight.

"I was in a gymnasium a few times in Europe and I feel my dancing has helped my legs. I don't drink or smoke and smoke, and at heart am a prixefighter," Ray is quoted,

Robinson should make good. He should push a few hun-dred thousand into, what is said to be a depleted exchequer, and he will likely sim for Bobo Olson, if not Archie Moore, in his comeback quest.

### TWO TYPES OF UNEMPLOYMENT

The furors over the remark by Defence Secretary Charles E. Wilson of the United States that he prefer bird-dogs to kennel-fed dogs has died down. Most people, we suspect, regarded the words in which Mr. Wilson chose to outline his attitude towards unem-

Mr. Wilson cross to outnie his attitude owards meaning ployment as merely inept. Some of the shrewder journalists, though, have been able to make out quite a case for the contention that Wilson's phrase, far from being clumsy, was actually apt in describing the philosophy which is held by many, people

in describing the philosophy which is near by many proper towards the problem of unemployment. Consider the following sentences: "Wilson was simply stating what most, if not all, big businessmen believe: That a worker who loses his job because of depressed con-ditions in one locality should try to find work in a locality where work is available. The trouble is that the union movement does not believe this."

union movement does not believe this."
As so other happens, this appears to be a problem
in which the truth lies mid-way between the views of extermists. Moreover, this fact ought to be epident to any
person who will survey the problem without prior blas.
For workers to be required to uproot their families
and move to another community every time there is a
lay-off in the plant at which they are employed would

lay-off in the plant at which they are employed would netall severe financial loss for them, would enhance the cril effects of periods of slackening business for many communities and would amost certainly confront indus-tifallits with extremely troublesome personnel problems. Today many factory employees own their homes. It is obvious that prices for real estate will be lower in com-munities in which work is scarce and higher is near where the contract of the property of the contract where the contract of the property of the contract where the contract of the contract of the contract where the contract of the contract of the contract where the contract of the contract of the contract of the contract of a series of economic hows. To offset usib losses, unloss search of employment, their families would be subject to a series of conomic blows. To offset such losses, unions would almost certainly demand higher wages. It is bad enough for a community to have many of its citizens out of work; much worse if these citizens pull up stakes and move to other centres.

up stakes and move to other centres.

Despite every effort by management, lay-offs cannot help but cause some disruption to the smooth operation of industrial enterprise. Management's problems would be doubled or trebled if, whenever business picked up again, it was found that no former employees were available to fill jobs with which they were familiar.

On the other hand, for workers to continue to reside

in areas where there is little work provides ample grounds for legitimate criticism of their lack of initiative. When for legitimate criticism of their lack of initiative. When unemployment is not due to some seasonal or temporary condition, when the changing economy of the nation appears to have reduced permanently the ned for workers in a certain area, or in a certain industry, then it is instanced by the property of the control of t

any line.

If almilies, points ought to be self evident. If difficulty arises, it should be in distinguishing between the two types of conditions, between unemployment which is temporary and unemployment which is likely to be permanent.

# Johnny Saxton New Welterweight Champ Of World, Defeats Kid Gavilan

CHIPS OFF THE SPORTS BLOCK By GRO. H. Canvers, Sports Editor

PAGE ARTHUR MURRAY

What professional boxing needs, judging from that petting match last nighth between Kid Gavilan and Johnny Saxton, is a little "Hurricano Hazel" treatment.

H was one of the greatest "reck-a-bye-baby" exhibitions ever stared in a rhm. The big crewd boosed and rightly as and the terver amouncer said the referee had been told to tell the beys to cut out the shemanigars and de a little fighting for a change. He might just as well have talked to "Missel."

It was a hugging match from start to finish and Sax must have outlungged the Cuban Panther for he was given decision. Oh, they swang fifts occasionally and if you waich closely you might have noticed a few. Gavilan was push a left hand out quile requently, but Johimy suddenly reme left and out quile frequently but Johimy suddenly reme

The pair "mmbh'd around the rian the most of the night with both doing a reasonable factimite of the Christian with point and the pair the most of the pair the characteristic milting with populace they hadri disobered union rules and worked themselves into exhaustion. About all the paid pervisers gut out of il with the exception they had been told a new "champlon" was crowned, was a few new dance steps.

Well, mebbe a half loaf is better than none. Or not as od as a whole one.

The 1984 baseball senson is over as far as the Believille Baiss and Oakville Oaks are concerned. The boss-men of the squade got into a three-way haddle with Secretary for Rowdon of the Ontario Baseball Association, and the con-sensus was "Call is oft."

The Batss and the Oaks would have liked to have settled the issue with taking a ramble on the weather. But entitled Manufacture of the Bats or the Oaks mentior thought a sudden death rame was fair to either team. Add to this the fact that both squads have not board around a baceful for week, and you have another reason.

Both teams would probably have made Tip Logan go green with envy with their booting of the ball, not to mention the MI-color of batting eyes and pitching arms.

de-conor or nature gives any pittering arms. We arrest that it would not be after the freezame arrive arms and that all the control of the co

"At least," said the irrepressible sorrel-top, "we were not eated for the title."

The fame was settled amicably. There were no demands on the part of either feam. Secretary Rawdon said if one team or the other had demanded a series or game be play-ed, he had no alternative but to order it. However, he was

The Baia Shoé Company, the fearm's sponeors, Belleville and the squad itself can be proud of its achievements in the 1854 season. The 'clab acquited lited' first nobly despite the fact it was eliminated in the Viaduct Learne phrofit by the Oaks. It had, previously deprived Peterborough of any champloonship appriations.

Came the OBA playdowns and the team moved inle a smooth playing slot. It again sent the Petes into a seasonal discard and took on the leave champlons, the Oshawa Transporters. And much to the surprise of a lot of people, copically the Transporters and their supporters, the "upstate from Belleville" took their champlons two rames to one to qualify for the OBA senter finals.

Meanwhile, the Oakville Oaks, which had been beaten by Ohawa for the league title, rubbed out Petrolis, then work on to shade the western Ontario Champlons from Nigars Falis, to become eligible to meet the Besta for the provincial batable. Date: Hurricane Hazel and a georari orner, custedness on the part of the weatherman, and the sesson ended in the stalemate mentilooed above.

And now that the diamond pastime is wrapped up for the season, we will probably enjoy some of the best "Injun" sumer seen in these parts for years. "They'll do it every time."

Baseball may be in the mothballs for the season, but the softballiers are going to have a final filing at their favorities sport. Bob Temple's title-bungry Bobeats will battle ill out with the Toronte Local No. 25% on Saturday at Coboury, in their third and final tusule for the OASA intermediate "A"

The Toronio club, turned down Temple's generous finan-cial offer to play the game here, so Cobourg it is, with the till seedantied to start at 120. The Clat are going to be at full from their grasp without a strong their first tills still from their grasp without a strong to the second the from their grasp without a strong to the second the from their grasp without a strong to the second the from their grasp without a strong to the second the from their grasp without a strong to the second the second through the second the second through the second that marked their effort here in the second game, they should do just that,

# NEW SALESMAN GOES TO WORK

Your printed matter becomes a powerful "silent salesman" for you when planned and produced by us, to "win customers and influence business." We build persuasive salesmanship into everything - from a card to a catalogue - You insist upon your salesman being well dressed, neat. Be equally particular about the appearance of your printing. The better it looks, the better it sells!

You Name It! . . . We Print It!

It is the craftsmanship that goes into the job that makes the difference in the quality.. but adds nothing to the cost. Let us show you samples and supportions of such work as:

SPECIALLY DESIGNED LETTERHEADS
ADVERTISING FOLDERS - BROCHURES
CATALOGUES - PRICE LISTS - RULE FORMS
SPECIAL FORMS TO MEET YOUR SPECIAL NEEDS
PERSONALIZED SOCIAL STATIONERY

- Correct In Every Detail -

If leftwingers in this column appear to be counsels for the efence, goalies judges, and the rest of the puckchasing crew rown witnesses or jurymen, just blame this department's day-me environment for the past week or so,

We sent the office private evelvow "Louis the Lash." out on a scouling expedition to Wall Gerow's irlee the other night and he came back with a fistful of noise, a headful of optimizm and a gloom in his eye.

He took a lengthy gander at Coach Frank Boucher's mor' bopefuls dashing up and down the icelaner with a cial long and lingering look of shock-haired Tony Paris, Mi-'s hockey pride of last year, who will be the Memos' Horatio-the-bridge for the upcoming season.

Little "Dragnet" shifted his sights up front, and the story are about to hear is true. Not even the names are changed

Young Marse Bettiol, our rooter-outer discovered, has just resulted the voting age. He cavorted along the left bank lanes for the Galt Black Hawks last season, with such distinguished compeny as Hec Lalonds (remember!) and Minard, one of the better front lines in Junior OMA, ranks at that time.

Bettiol has plenty of speed, sick wizardry and a shot that made even the hardened Tony wince when the pucks bounced off his publistery. In fact, at the shire red of the rink where the "Tark" was plugring the peak-bole, Bettidl sex flipping in pucks with more oy less gay absonden. He was fed right nobly by his finant-topped conferers, and, as the private of reported, the threecoms locked the best on

Then there was that point-scoring due, who topped the least year, the Duncan twins, frwin and Elwyn, who are back sight, hard as nalls after a busy summer. Their familiar drop-passing and frunt-of-net maneauvres were just as good as when the piccoles sounded "Top" less syring,

There were the boys of the old brigade who looked good who prove that a summer of streamous baseball among ser activities has not them any harm. Big Vern Goyer look as good as ever with Davey Jones turning in a right good great with MacDonald, Nobber Day, Ted DeCray ole smoothie, Semmy the Man Mulhalland, Doug Hull an

Fred Keiner, late of the Scottish League, was on hand ting himself into shape. He was near the top when the irnic Loop scoring statistics were released last season.

Tomorrow the league all-star-Orhawa game gets under way in the Kington ... mmunity Centre. "Red" Doran will coach the all-star spusd, but as yet is not quite sure of his personnel. Just who will represent the Memos was not known at time of writing but quite likely four or five of the lads will join the all-star brigade.

## Bruins Change Style Of Play To 'Wide-Open Crowd-Pleasing' Game

Clarence Campbell, president of the National Hockey League in an interview in Montreal the other day came up with some interesting advice to puck-minded youngsters whose hockey sights are lined on a spot with a major league club.

gais are incu on a spot want, a more reages cause.

Taking the view that education is the most valuable thing in life that can be transported without charge—an it's permanent—Campbell urged aspiring youngsters to previde themselves with the best possible closurion because their chances of reaching the N.H.L. are 500 to one.

Campbell told "Red" Fisher of the Montreal Star, that had no intention of knocking the business he oversees.

"I honestly feel that hockey affords a wonderful career, to anyone who has the qualifications to reach our league, and if a youngster feels he can make it I'm most emphatic in my belief that he can't go wrong pursuing his ambitian."

Campbell says he would hesitate to advise a boy of 15 to is up other pursuits for hockey unless the youngster felt he lly had the physical and mental qualifications.

"But the decision doesn't have to be made that soon. He can wait until he's IT or 18, at which time he has a preity clear picture of where he's roling hockeywise and, incldentally, at which stare the odds against his reaching the
NHL have decreased sharply from the initial 500 to 1."

This figure is reached from the number of potential players who may reach NRL calibre. About 69,800 boys play in leagues from prewere to senior, and from this field comes yirtually all the NRL talent. The NRL has an active playing strength of 120.

There are about 100 players in the American Hockey League and 200 more in the Western and Quebec pro circuits. The total of full-fledged professionals thus is 420, making the odds of youngsters reaching pro level 150 to 1.

In "amaieur" leagues where salaries are provided, about 300 can earn some sort of income. Even there the odds against a youngster getting into the money ranks are 50 to 1.

Campbell says any belief that pro leagues wave delhar bills in front of youngsters to lure them from studies is wrong. He says inroads of hockey on a youngster's educa-tional development "have been inconsequential," because fewer than 15 per cent of students who graduate from public

Yup, the Templars lost the decision by an 3-2 count in bourg with the Toronto Local 299's winning the OASA In-mediate "AA" title on Saturday afternoon.

Robert, m'lad you should have had the "Bunk," the "Buck" and La Thompson, working out those filippers during these halmy fajun summer days, for up that in Cobourg Saturday they were just appendance that wielded a halfe when the bugies blew "cook-house."

Not deprecating the win of the Toronio club nor estab-lishing any alibis, but it free sirelis, especially when the sacks are cluttered with foreners, won't win any ball game. That is the way it was. The Bobest pitchers had more dif-ficulty locating the plate than a blind pooch in a city pound

Had the Cats' chuckers been able to locate the platter with little more efficiency—well—it would have been a better ball me. Quien sabe?

However it is all over and the Cats have no reason to duck into the spare bedroom and dunk their noggins under a pillow Far from it. They did an excellent job in carrying the lar Belleville banner to the championship barrier in the soitbal

They, with Point Anne, Northern Electric, Frankford, and the rest of the softball "bridesmalds" can rest on their hurries with the suifaction of a job well done, even if they mixed the glory hubble by the traditional cas's whiters Somebody must lose. And don't forcet there's a helier lost of teams in this province that did not reach the finalt series in the respective proups.

Okay. Okay. To the victors go the spoils: But don' forget that the victors earned the spoils the hard way. Any team that reaches a final series in any phase of sport must have something "on the boil," so to speak.

And the Bobcats and the rest of the Belleville District Softball League, some seven all told, that reached the finals series in their classifications, had just that. All they lacked bras that fine line drawn between a champion—and a runner-

However, it's all over. The gives, spikes, bases, etc., can be placed in the leving care of the mobibalis. The playmen can next in coulents, or in the majority of cases, turn to their beckey gear. The EDSL can put listed on the beck, and rightly as, for a jeb well done. The unpo can retire, their masks and pads—and hide their faces—until it blear over, and the spousant out mixed futuring up the count,

A leagard may have changed its spots but its claws are said to be as sharp as they were hast year when it wen the Ontate Senter "3" heavy title. Reports have it that the Onhawa Truchmen are "ne more" and henceforth will be known as the "Whithy Senier Heckey Club". Seems like the motor city orphans have found a step-daddy-that ld take good care of them.

Symbol of Quality The World's Most Dependable Television

A Word of Thanks to the Canadian Public

RCA Victor's Plant at Prescott, Canada's largest electronic manufacturing plant backed by the big RCA Victor Cabinet Plant in Owen Sound - is working 'round the clock to meet the tremendous public demand for "Deep Image" Television. With more RCA Victor sets coming off the

production lines than ever before, you won't have to wait long for the RCAVictor model of your choice.

RCA Victor is deeply appreciative of the tribute expressed in the great public preference for its new line of "Deep Image" Television receivers.

CHIPS OFF THE SPORTS BLOCK By GRO. H. CARVER, Sports Editor

If was suggested that merchants of the elty be ap-reached with a view to getting them to sponsor one player sch at an approximate cost of \$39. This would provide reater, sech and forstrance.

At the preent time, a promising junior or juvenile player like the well-known poetfall flower "wasting its sweet-s on the desert sir. And Belleville definitely had been a sare insofar as junior players are concerned since the Junior club became non-existent.

These boys are shoere. They want to play hocker, i there is no reason why they should be playing ralibide senior games and doing a lot of wishful thinking. They willing to do their part and they deserve all the assists that can be given them.

MENDES-FRANCE TURNS TO ECONOMIC PROBLEMS

MENDES-PRANCE TURNS TO ECONOMIC PROBLEMS Fremier Fierre Mendes-Prance is seeking faar-racching economic agreements with West Germany. This move comes as an anticultam after the dramatic events of last week-end, when agreement was reached a method of integrating West Germany into the western democracles' anti-Communist atiliance. For Mendes-Prance, however, it any well be the be-ginning, rather than the construct of what he conceives to be his mission in a cower, the French premier frankly

to be his mission in France's political Afrairs.

When he came to power, the French premier trankly intimated that he regarded international problems facing France as bothersome details which would have to be cleared up so that he could get to work on the main task, which he seasonomic conditions. At Geneva he worked could specify the problem in Indo-Crinia. At London and at Parts he was shill be to get a European agreement acceptable to the French. Now he is free to turn to what he considers the back cause of all France's troubles.

Low...and behold!

# The motoramic Chevrolets for 35

Chevrolet and General Motors took a whole new look at the low-cost car—and just look what happened!

# FIRST SHOWING TOMORROW,

The valve-in-head V8 as only the valve-in-head leader can build it!

Now Chevrolet, the leading builder of valve-in-head engines, introduces the "Purbo-Fire V8." It carries the V8 design to a new high in efficiency with its high horsepower (1627), high-compression (8 to 11), high performance and surprisingly high gamileage. Available with standard transmission, or with the extra-cost options of Overdrive or Powercide.

You can choose from two new sixes, too!

Chevrolet also offers the last word in six-ylinder performance and economy! There's a new "Blue-Flame 136" teamed with Powerglide and a new "Blue-Flame 123" with either standard transmission or Overdrive. Can't you tell just by looking that Chevrolet and General Motors have come up with a completely new idea about the low-priced car? The idea is this: to build a car that offers the very, newest thing in styling, the most modern features, the finest kind of performance and the highest quality of manufacture — all at a modest price. It's something that took a lot of doing and that only the world's largest car builders could do. Everything's new in this Motoramic Chevrolet from its lower top right down to its tubleless tires. Come in for the most fascinating visit you ever made to an automobile showncom!

More than a new car—a new concept of low-cost motoring

And it has "360" Full Fidelity Sound. Two matched speakers face in opposite directions

and surround you with clear, natural sound

exciting experience of complete reality. There are

many fine new models of CBS-Columbia Television

such as never came from a TV set before. Perfect sight and perfect sound combine for an

## - EVADING THE ISSUET

EVADING THE ISSUE?

A report from Oklawa that federal authorities are studying proposals for broad changes in Canada's unemployment innurance system will be welcome news to many, to municipal officials and welfare agencies as well as to workers and their dependents.

Jinfortunately, it does not appear that the proposal changes will remedy the chief detect in the present system. Major alterations at present contemplated, it is add, would morease the minimum period for men and proposal workers are supplyed with the content purposals. The former change would be of particular values—but it would not meet the main objection raised by municipal authorities to the present system. The Fedvalue—but it would not meet the main objection raised by minicipal authorities to the present system. The Fed-eral Government would still be refusing to accept respon-sibility for caring for those unemployed persons who had exhausted their insurance benefits. Municipalities would still be saddled with this burden.

still be saddled with this burden.

It is the contention of municipal governments that
the present tax structure does not make it possible for
them to assume this responsibility. Municipal authorities maintain that the rederal authorities should accept ties maintain that the federal authorities anough accept he full responsibility for unemployment relief. Merely enlarging the coverage of the system of unemployment insurance is not the same thing. In one sense, therefore, it may be argued that any revision of existing insurance regulations, far from representing any acceptance by Oi-tawa of the argument of municipalities, is a further effort to evade the issue.

## CONGRATULATIONS, BROCKVILLE!

Nearly half of Brockville's 13,000 people were moved out of the city on Sunday in the first voluntary evacuation exercise ever held in Ontario.

Brockville residents deserve congratulations. To find half the populace ready to co-operate in such an exercise is somewhat surprising. Generally people are reluc-tant to inconvenience themselves until the bombs start fall-ing or the bullets start flying. Somebody must have done ing of the funets start nying. Somebody must have done a fine public relations job in Brockville for the civilian de-fence project. Quite probably a major portion of the credit belongs to our contemporary, the Brockville Recorder and Times.

There was one item in the news report of the proceedings which made somewhat strange reading. Four hundings which made somewhat strange reading. Four hundingd, civil defence workers left the city at the first alarm, moved seven miles north and then re-entered the area to deal with make-believe bomb hits. Imagine what would have happened to London if the air raid wardens and the fire-watchers had scurried from the city every night dur-ing the bilts by the Luttwaffel That shows what a great change in methods will be necessary in any future war as the result of the A-bomb and the H-bomb.

#### Long-Short Story

What's the point of advertising? It's as simple as this. If you have something to

sell, the more people who know about it,

the more you will sell. Your ad in this

paper affords the quickest way, for the

least money, to get your selling story

before the most people. If it pays to sell,

it pays to advertise . . . because ad-

vertising IS selling, geared for large-

scale, profitable results!

#### COMMUNITY CHEST NEEDS HELP

Six organizations comprise the membership of the eville Community Chest. They are the Children's Bellsville Community Chest. They are ins Conducta, Ald Society, the Victorian Order of Nurses, the YMCA, the Navy League, the Boy Scouts Association and the St. John Ambulance Corps. It would be erroneous to term all these groups charitable organizations. Perhaps, strictly speaking, none of them fully quality for that definition. speaking, none of them fully quality for that cellution. They are more concerned with community service than with charity. Yet, at the same time, only a person blind to facts would suggest that economic circumstances do not influence the need for funds to support the work of

It is no secret that, while we are still enjoying pros-perity as a nation, the days of "full employment" have passed. There are some Belleville citizens who, through passed. There are some Believille chizes who, duoles no fault of their own, are today without jobs. Since seasonal influences play a major role in Canada's employment picture, the number of unemployed is likely to increase during the winter months which lie ahead. This ns that the services of the member organizations of the Chest, always essential to the welfare of the community as a whole, will assume increased importance.

"The Tire Specialists"

We don't sell refrigeralers, davenports or chairs, We don't sell freezers or make radio repairs. We don't sell fishin' poles, chicken wire and stuff. We just sell TIRES and we think that's enough.

We don't see how anyone can be so smart, As to know all the answers to every modern art. So we don't claim to know so bloomin' much We just know TIRES, TREADING and such.

When you need a doctor, to a doctor you go.
You don't get a plumber to fix a broken toc.
So when your TIRES are ailin' or gettin' kinda' thin.
Call the TIRE SPECIALISTS—that's the business
we're in.

## Serve Canada and Yourself in the ARTILLERY

The crack gunners of the Royal Canadian Artillery are rightly proud of their many skills. They specialize in a wide range of technical skills and trades that include radio and telephose operators, driver mechanics, surveyors, meteorologists and even pilots. The Canadian gunner is a highly trained soldier.

The Artillery is the place for the young man who wants specialized training and a chance to get ahead in a military career. You enjoy financial security, good pay, liberal pension. You can qualify for advanced training and rapid promotion.

You get 30 days annual holiday with pay. Best of all, you serve Canada as a soldier skilled in a worthwhile trade. To be eligible you must be 17 to 40,

skilled tradesmen to 45. When applying bring birth certificate or other proof of age.

# ANNIVERSARY OF DISASTER

ANNIVERSALY OF DISTRIBUTION AND A quarter of a century ago Wall Street was rocked by one of the greatest financial crashes in modern history. On the 25th anniversary of this event, articles and editorials are appearing in many of our contemporarie. Some other of them make intensely interesting reading for those older of them make intensely interesting reading for those older. of them make intensely interesting reading for those older eithtens who have a clear memory of those gloomy days in the fall of 1929. No does this interest spring entirely from the spur which such articles bring to memory, in-fusing with life events the recollection of which has been eitherned by the pasting years. In some instances the comment appears to be of the shuff of which fables are

For instance, one contemporary says the market crash \*appropriately enough, ushered in an era of depression during which millions were unemployed in the United States, in Great Britain, and in Canada." Now there is nothing wrong with this statement providing somebody nothing wrong with this statement providing somebody does not interpret it as meaning that the stock market crash caused the great depression of the thirties. Such an interpretation would be an accurate description of the causes of the financial troubles of many individuals but the stock market crash did not cause the depression On the other hand, economic weaknesses, not only in the United States, Britain and Canada, but in many if not est of the other nations of the world, were the basic most of the other nations of the world, were the basic causes of the market crash. The crash, in its turn, had an unfavorable reaction on economic conditions, but to suggest that the picture was a rosy one before stock prices
